Course Prospectus

Name of the Group: Cloud Computing

Course Name: “Cloud Computing Assistant”

Course Code: CC101

NSDA CODE: 2021/ITES/NIELIT/00353

NSQF LEVEL: 03

Duration: 300 Hours, 2 Months

Last Date of Registration: 08-09-2025

Display of Provisional Selection List: 09-09-2025

Payment of first instalment fee: 09-09-2025 to 10-09-2025

Course Start Date: 10-09-2025

Preamble:

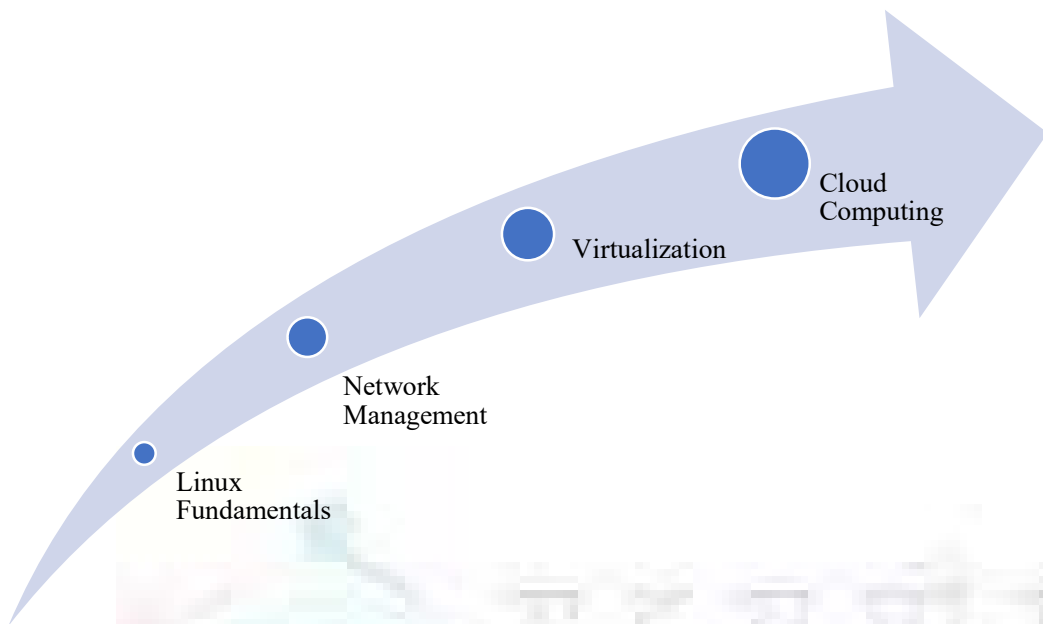

Fast and swift evolution of cloud technologies have transformed the way businesses manage infrastructure, data, and services. As organizations increasingly migrate to the cloud, there is a growing demand for professionals who can support, manage, and assist in the deployment and maintenance of cloud-based environments. the role of a **Cloud Computing Assistant** becomes crucial in ensuring the smooth functioning of cloud-based environments. A Cloud Computing Assistant supports the deployment, monitoring, and maintenance of cloud services and infrastructure, enabling teams to work efficiently in dynamic and distributed digital workspaces.

Objective of the Course:

The Course is 300 Hrs. (2 Months) program aimed at molding candidates to Skilled System/Cloud Engineer with Cloud Services Administration knowledge to maintain the Systems, Networks and cloud infrastructure in today's scenario.

Outcome of the Course: This skill-oriented course provides candidates with information required for configure and administration of OS Server, Cloud Deployment & its Security and equip them with the skills required to protect & recover the computer systems & networks from various security threats in dedicated or cloud environment.

Full Flow of Course

Course Structure

This course contains total six modules. After completing the first five modules, the students have to do a 30 Hours project using any of the topics studied to earn the Certification.

Sl. No.	Module Name	Duration (in weeks)
1	Conceptualize Operating Systems (Windows and Linux)	2 Weeks
2	Introduction to Network Management	2 Weeks
3	Implementing Virtualization and Basics of Cloud Computing	2 Weeks
4	Employability Skills	1 Week
5	OJT/Project	1 Week
Total Duration		8 Weeks

Course Fees

Registration Fee- Rs.1000/-

Course fee is Rs. 13,200/- {Can be paid as a single instalment of Rs.13,200/- (Including Reg. fee) or in 2 instalments as given below}

Registration Fee	Rs. 1000/-	Nil/-	
Installment No	General Candidates (Course Fee.)	SC-ST Candidates (Course Fee.)	Last Date
1	6,600.00	Nil/-	10-09-2025
2	6,600.00	Nil/-	10-10-2025
Total	14,200.00	Nil/-	

Registration Fee – Refund Policy

(Non-Refundable if candidate is selected for admission but did not join and if a candidate has applied but not eligible.)

However, the above registration fee shall be refunded on few special cases as given below

- ✓ Candidates are eligible but not selected for admission.
- ✓ Course postponed and new date is not convenient for the student.
- ✓ Course cancelled.

Eligibility

- ✓ Diploma – Pursuing/completed, Grade 10th completed, Grade 8th completed.

How to Apply

Candidates can apply online in our [website https://nva.nielit.gov.in](https://nva.nielit.gov.in) Payment towards non-refundable registration fee can be paid through any of the following modes:

- ✓ Online transaction: Account No: 31185720641 Branch: Kottur (Chennai), IFS Code: SBIN0001669.

Note: The Institute will not be responsible for any mistakes done by either the bank concerned or by the depositor while remitting the amount into our account

Last date of Registration: 08th September 2025

Registration Procedure

All interested candidates are required to fill the Registration form online with registration fee before **08th September 2025** with all the necessary information.

Students who have completed the course successfully and qualified, Placement guidance and career counselling will be given to crack their interviews.

Important Dates

- **Last Date of Registration: 08-09-2025**
- **Display of Provisional Selection List: 09-09-2025**
- **Payment of first instalment fee: 09-09-2025 to 10-09-2025**
- **Course Start Date: 10-09-2025**
- **Payment of second instalment fee: within 10-10-2025**

Examination & Certification

- ✓ Certification Body: Examination Section, NIELIT HQ
- ✓ Certificates will be issued after successful completion of all the modules including project. For getting Certified Cloud Computing Engineer certificate a candidate has to pass each module individually with minimum required marks.

Examination scheme is as follows:

Theory (Each Question will carry 1 mark) Duration (in Min): 90		Practical			Internal Assessment (Marks)	Major Project/ Dissertation		Total
Papers	No. of Questions /Paper	Papers	Duration (Min)	Marks /Paper		No. Of Projects	Marks	
2	100	1	90	90	30	1	30	350

- **Theory Papers**

Theory Papers

- **Theory 1 – Cloud Computing Assistant**
- **Theory 2 – Cloud Computing Assistant**

Practical Papers

- **Practical 1 – Cloud Computing Assistant**

Means of Assessment					
	Theory	Practical	Internal Assessment	Major Project/ Dissertation	
No of Papers	02	01	01	01	
Marks Each Paper	100	90	30	Presentation	Projects
				15	15
Total Marks	200	90	30	30	
				350	

Grading Scheme

Following Grading Scheme (on the basis of total marks) will be followed:

Grade	S	A	B	C	D	Fail
Marks Range (in %)	85 to 100	75 to 84	65 to 74	55 to 64	50 to 54	Below 50

Final Grading as per above grading scheme will be given on the basis of total marks obtained in all modules.

Detailed Syllabus

1. Conceptualize Operating Systems (Windows and Linux)

- Overview of Windows
- Installation of windows
- Exploring Windows
- Overview of Linux
- Installation of Linux
- Exploring Linux

2. Introduction to Network Management

- Introduction to Networking
- Exploring Networking Devices
- Learning TCP/IP
- Learning IP Addressing

3. Fundamentals of Virtualization and Basics of Cloud Computing

- Concept of Virtualization
- Knowledge of Virtualization Tools
- Introduction to Cloud Computing
- Google Cloud Platform

4. Employability Skills

- Career Development & Goal Setting
- Essential Digital Skills
- Getting Ready for apprenticeship & Jobs

5. Project

- Problem Definition and Architectural Development
- Requirement Analysis
- Security Server Selection
- Configuring Server
- Final Design & Deployment Phase
- Testing Phase
